Project Title: The Making of Avatar: The Last Airbender Website

I'd like to build this site as multiple pages rather than a long, single page website. Site navigation bar across the top. I think there is plenty of content and photography to build out individual pages.

- Home Page/Introduction - Introduce basic point I want to get across about the show. Set the tone for its interesting path to production and audience reception.
- Synopsis of the show premise (brief so the audience understands the concept, but that's not the focus of the site)
- Development
 - Conception and Production- tell the story of how it was thought up
 - Influences-talk about the interesting things that came together to inspire worldbuilding
 - Themes- the show is unique in the themes it discusses. Display this.
- Ratings and Critical Response
 - Talk about the impact of the show
- Awards and Nominations
 - Show off show's success and acclaim
- References: this page will just list sources, including the Wikipedia page, as well as other sources for photography, and any other credits that need to be provided.
